

Nha Khanh

SPRING 2017 COLLECTION

An Inside Look

THE NHA KHANH MISSION is to empower women with inner-strength through their clothing while focusing on "feminine elegance with a modern edge." "Nha", in Vietnamese, is a feminine word implying 'light and elegance', whereas "Khanh" is a masculine word, meaning 'victory and celebration'. The fusion of the words creates a balance of unison between feminine and masculine. The collection joins lightness and softness of silhouette and fabrication with the celebration of construction and classic forms. This is the fundamental philosophy and creative driving force behind the Nha Khanh label.
